

Green Valley Amateur Radio Club
Board Meeting Minutes

The Board of Directors of the Green Valley Amateur Radio Club met in special session via Zoom on 12 July 2024. All board members except the vice president were present.

Ron Phillips received a communication from the owners of the site where our primary repeater is located. He was informed the club would have to start paying rent of \$500 a month if we wished to keep the repeater on the site. President Gene called a special meeting of the board to discuss the situation. All of the board members agreed the club cannot afford to pay that much rent each month. A motion was made and seconded to remove the equipment as soon as practical from the site and place the equipment in storage until a site is found. A vote was held and the vote was unanimous to remove the equipment and place it in storage. The site owners have given the club until 15 September to remove the equipment.

President Gene will contact club members about borrowing a four wheel drive truck capable of transporting the equipment from the site and a place to store the equipment.

The meeting was adjourned.
